

DCR

2025 Day of Clinical Research

Tuesday, 2 December 2025

Maurice E. Müller Auditorium, Inselspital

Welcome

Conference Convenor

Dear friends and colleagues,
fellow clinical researchers,

It is a great honour, on behalf of the dedicated staff of the Department of Clinical Research, to welcome you to our 3rd flagship Department of Clinical Research "**Day of Clinical Research**". This year we will have two major programs, commencing with our Day on Tuesday, December 2, with the "**Bern Highlights**" **session** showcasing the most significant studies published in the past year, and the "**Best of Junior Research**", chosen from abstracts submitted by a huge variety of clinical researchers across our campuses. Here we also feature our international guest speaker, this year covering the topic of Sepsis, which is highly relevant across all medical fields.

Then, on Tuesday, December 9, we have our **Posters and Junior Research Showcase**, providing a forum to display and promote the breadth of clinical research across the Faculty of Medicine, University of Bern, and University Hospitals.

We are pleased to again offer many prizes, as well as opportunities for cross-disciplinary discussions and collaborations to be fostered. I am very grateful to the excellent team at DCR who have worked so hard to make this event a true highlight of the Faculty calendar.

With very best wishes,

A handwritten signature in black ink, appearing to read "Eva Segelov".

Prof. Dr. Eva Segelov
Director Department of Clinical Research
University of Bern

Organizing Committee

Prof. Dr. med. Claudio Bassetti

Dean of the Faculty of Medicine, University of Bern
Senior Consultant, Neurology Clinic
Inselspital

Prof. Dr. med. Annalisa Berzigotti

Clinic Director and Chief Physician
University Clinic for Hepatology
Inselspital

Prof. Dr. med. Stephan Windecker

Clinic Director and Head Physician
University Clinic for Cardiology
Inselspital

Prof. Dr. med. Beat Roth

Clinic Director and Head Physician
University Clinic for Urology
Inselspital

Prof. Dr. med. Andri Rauch

Clinic Director and Head Physician
Department of Infectious Diseases
Inselspital

Prof. Dr. med. Lars Hemkens

Academic Director of Clinical Trials
Department of Clinical Research
University of Bern

Prof. Dr. med. Dr. rer. nat. Benjamin Ineichen

Head of Medical Data Science Unit
Department of Clinical Research
University of Bern

Prof. Dr. med. Kristina Adorjan

Clinical Director
University Hospital of Psychiatry and Psychotherapy, UPD
University of Bern

Prof. Dr. med. Uyen Huynh-Do

Head Physician
University Clinic for Nephrology and Hypertension
Inselspital

Prof. Dr. med. Daniel Surbek

Managing Co-Clinic Director and Head Physician
Obstetrics and Maternal-Fetal Medicine
Inselspital

Prof. Dr. med. Carole Elodie Aubert

Head Physician and Deputy Head of Medical Polyclinic
University Clinic for General Internal Medicine
Inselspital

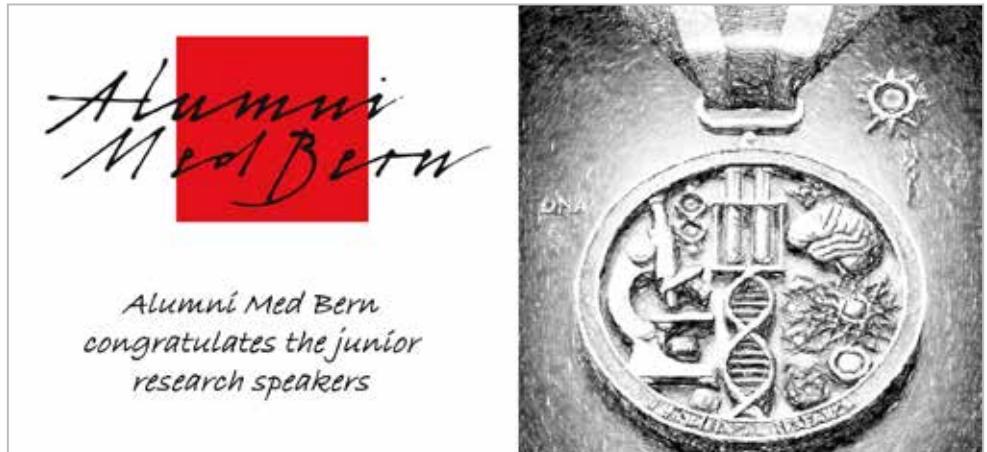

Prof. Dr. med. Guido Beldi

Head Physician
University Clinic for Visceral Surgery
Inselspital

Partners and Prizes

We thank the Alumni Med Bern for sponsorship of the prizes for the Junior Research 'Pecha Kucha' style presentations.

Program

Tuesday, 2 December 2025 | 11.45–17.30 | Maurice E. Müller Auditorium

Operationstrakt Ost (OpO) F, Inselspital

11.45 – 12.30 Lunch

12.30 Official opening

Prof. Dr. Nadia Mercader Huber

Vice Dean of the Faculty of Medicine at the University of Bern

12.40 Update on the DCR

Prof. Dr. Eva Segelov

Director, Department of Clinical Research, University of Bern

12.50 Keynote Talk 1: "Novel Designs for Clinical Research"

Prof. Dr. Lars Hemkens

Academic Director of Clinical Trials, Department of Clinical Research, University of Bern

Chaired by: Prof. Dr. Guido Beldi

Head of Visceral Surgery, Inselspital Bern

13.15 – 14.00 Bern Highlights

3 Presentations from the highest impact clinical trials published by Faculty Researchers in the past year, followed by a Panel discussion

Chaired by: Prof. Dr. Andri Rauch

Clinic Director of Infectious Diseases, Inselspital Bern

13.15 Prof. Dr. Tobias Reichlin

Head of Cardiology, Inselspital Bern

"Pulsed Field or Cryoballoon Ablation for Paroxysmal Atrial Fibrillation – SINGLE SHOT CHAMPION trial."

13.30 Prof. Dr. Urs Fischer

Head and Chair of Neurology, Inselspital Bern

"Endovascular Treatment for Stroke Due to Occlusion of Medium or Distal Vessels (DISTAL Trial)."

Presented by Prof. Dr. Johannes Kaesmacher, PhD

Senior Physician (Oberarzt II), Neuroradiology, Inselspital Bern

13.45 Prof. Dr. Wolf E. Hautz

Senior Physician, Department of Emergency Medicine, Inselspital Bern

"Diagnoses supported by a computerised diagnostic decisionsupport system versus conventional diagnoses in emergency patients (DDX-

BRO): a multicentre, multiple-period, doubleblind, cluster-randomised, crossover superiority trial."

14.00 Panel discussion: "The Secret of my Success"

Chaired by: Prof. Dr. Eva Segelov

14.30 Afternoon Tea

15.00 Keynote Talk 2: "Sepsis: The Future is Today"

Prof. Dr. Mervyn Singer

Professor of Intensive Care Medicine, Bloomsbury Institute, University College London

Chaired by: Prof. Dr. Joerg C. Schefold

Clinic Director of Intensive Care Medicine, Inselspital Bern

15.45 Junior Research Highlights

3 best Abstracts presented in modified Pecha Kucha style

Chaired by: Prof. Dr. Annalisa Berzigotti

Clinic Director of Visceral Surgery and Medicine, Inselspital Bern

Dr. med. Eloïse Magnenat

Resident at Department of Infectious Diseases, Inselspital Bern

"Physical inactivity is associated with persistent steatotic liver disease in people with HIV"

PD Dr. med. Christoph Saner

Senior Doctor at Department of Paediatrics, Inselspital Bern

"The Bern Obesity in Childhood and Adolescence Biorepository (BOCAB) — Insights on associations between socioeconomic position with severity of obesity and with dyslipidemia"

Mr. Jonas Keller

Department of Cardiology, Inselspital

"Incidence and burden of atrial fibrillation in cryptogenic stroke patients implanted with a cardiac monito"

16.45 – 17.30 Presentation of prizes for Junior Research Highlights and Apéro

Keynote Speeches

Tuesday, 2 December 2025 | Maurice E. Müller Auditorium

Operationstrakt Ost (OpO) F, Inselspital

Keynote Talk 1

Novel Designs for Clinical Research

Prof. Dr. Lars Hemkens

*Academic Director of Clinical Trials
Department of Clinical Research
University of Bern*

Chaired by: Prof. Dr. Guido Beldi
*Head of Visceral Surgery
Inselspital Bern*

Lars G. Hemkens, MD, MPH is Academic Director of Clinical Trials at the Department of Clinical Research (DCR), University of Bern, and Professor at the University of Basel. He is also affiliated with the Research Center for Clinical Neuroimmunology and Neuroscience Basel (RC2NB) and the Meta-Research Innovation Center at Stanford (METRICS).

His research focuses on clinical trials, evidence-based medicine, and digital health. With his team, he develops and implements innovative study designs and pragmatic approaches that integrate research into routine care by leveraging digital technologies and real-world data. He is Co-Principal Investigator of MultiSCRIPT, a nationwide pragmatic platform trial and learning healthcare system that continuously evaluates healthcare innovations in real-world practice.

Keynote Talk 2

Sepsis: The Future is Today

Prof. Dr. Mervyn Singer

*Professor of Intensive Care Medicine
Bloomsbury Institute
University College London*

Chaired by: Prof. Dr. Joerg C. Schefold
*Clinic Director of Intensive Care Medicine
Inselspital Bern*

Professor Mervyn Singer is Professor of Intensive Care Medicine at University College London. His research focuses on sepsis and critical illness. He contributed to the development of the oesophageal Doppler haemodynamic monitor, which is used in clinical practice. During the COVID-19 pandemic, he was part of the UCL team involved in work on the UCL Ventura CPAP system.

He has served as a Senior Investigator at the National Institute for Health and Care Research (NIHR) and currently holds the title of NIHR Emeritus Senior Investigator. As Co-Chair of the international task force that produced the 2016 Sepsis-3 definitions, he played a central role in the development of the updated criteria for sepsis. At this event, he will deliver a lecture titled "Sepsis: The Future Is Today."

Bern Highlights

Tuesday, 2 December 2025 | Maurice E. Müller Auditorium, Inselspital

Bern Highlights

3 Presentations from the highest impact clinical trials published by Faculty Researchers in the past year, followed by a Panel discussion.

Chaired by: Prof. Dr. Andri Rauch, Clinic director at Department of Infectious Diseases, Inselspital Bern

Prof. Dr. Tobias Reichlin

Head of Cardiology, Inselspital Bern

"Pulsed Field or Cryoballoon Ablation for Paroxysmal Atrial Fibrillation- SINGLE SHOT CHAMPION trial"
N Engl J Med 2025;392:1497-507

Prof. Dr med. Urs Fischer

Head and Chair of Neurology, Inselspital Bern

"Endovascular Treatment for Stroke Due to Occlusion of Medium or Distal Vessels (DISTAL Trial)"
N Engl J Med 392.14 (2025): 1374-1384

Presented by Prof. Dr. Johannes Kaesmacher, PhD
Senior Physician (Oberarzt II), Neuroradiology, Inselspital Bern

Prof. Dr. Wolf E. Hautz

Senior Physician, Department of Emergency Medicine, Inselspital Bern

"Diagnoses supported by a computerised diagnostic decision-support system versus conventional diagnoses in emergency patients (DDX-BRO): a multicentre, multiple-period, double-blind, cluster-randomised, crossover superiority trial"
Lancet Digit Health 2025; 7: e136-44

Women in Clinical Research Lunch

Wednesday, 3 December 2025 | 12.00–13.30 | sitem-insel Flavour Kitchen

In collaboration with FELS Network

Meet **Prof. Mervyn Singer**

Keynote Speaker of the Day of Clinical Research

in an exclusive lunch setting.

Hear how he actively **supports and promotes women in clinical research**, gain insights into his perspectives and take the chance to engage in open, inspiring discussions with one of the leading minds in medicine.

Female
Empowerment in
Life
Sciences

Poster Display and Junior Research Highlights

Tuesday, 9 December 2025 | Felix Frey Auditorium E0.211, sitem-Insel

Poster Session

Junior and mid-career clinical researchers present ongoing and completed research in a Poster Display in two categories: "Clinical Studies" and "Imaging, Methodology and Technology". Each poster presenter will have 1 minute to summarize their work during the poster walk.

Oral Session

Junior and mid-career researchers will have the opportunity to present their ongoing or completed work in a modified PechaKucha or rapid-fire format.

Program

13.00 **Poster Hanging and Viewing**

13.30 **Poster Walk**

Posters: "Clinical Studies"

Posters: "Imaging, Methodology and Technology"

15.00 **Junior Research Showcase**

Modified Pecha Kucha presentations of one completed studies, then five ongoing studies

Chaired by: Prof. Dr. Uyen Huynh-Do

Dr. med. Lydia Maderthaner

Senior doctor, King's College, IoPPN, London, and Department of Neurology, Inselspital Bern

"Sensor-Based Real-Life Assessment of Functional Movement Disorders (FMD): A Feasibility Study"

Dr. med. Anja Dietze

Resident, Department of Radiation Oncology, Inselspital Bern

"COMPORT: COMpartmentalization in POstoperative RadioTherapy for Head and Neck Squamous Cell Carcinoma – A Phase II Clinical Trial"

Lucian Ulf Häfele

Clinical Research Associate, Department of Clinical Research (DCR), University of Bern

"The development of MASLD Among survivors of breast or colorectal cancer (EVALUATE)"

Dr. med. Yves Wintsch

Resident, Department of Visceral Surgery and Medicine, Inselspital Bern

"AI-guided postoperative infection surveillance: day-specific lab test recommendations tailored to surgical groups"

Robert Staech

PhD Student, Institute of Social and Preventive Medicine (ISPM), University of Bern

"Physician emotional and personal self-disclosure during serious illness conversations: Effects on perceived trust, compassion, professionalism, and comfort"

Vera Bernhard

Data Scientist, Department of Clinical Research (DCR), University of Bern

"PsyNamic: A Living Systematic Review of Psychedelic Therapy in Psychiatric Disorders Using Large Language Models"

16.00 – 16.20 **Break**

Poster Display and Junior Research Highlights

Tuesday, 9 December 2025 | Felix Frey Auditorium E0.211, sitem-Insel

16.20 Rapid Fire Presentations

9 Presentations, 3 Min each + 2 Min questions

Chaired by: PD Dr. Chris Saner, senior physician at Children's Clinic, Inselspital Bern

- **Dr. med. Ryota Kakizaki**

Department of Cardiology, Inselspital Bern

"Impact of Achieving Guideline-Endorsed LDL-Cholesterol Levels on Neoatherosclerosis Formation after STEMI: A Secondary Analysis of the CONNECT Randomized Clinical Trial"

- **Dr. Daniëlle Verschoor**

Postdoctoral Research Fellow, DCR / Segelov Research Group, University of Bern

"Gender disparities in academic careers: insight from habilitated researchers at the Medical Faculty in Bern"

- **Dr. med. Lukas Baumann**

ID Consultant, Department of Infectious Diseases, Infection Prevention and Control, Inselspital Bern

"Influenza vaccine elicited immune response in immuno-compromised patients"

- **Dr. Patrick Bühlmann**

Advanced Postdoc, Department for BioMedical Research (DBMR), University of Bern

"Machine learning models to predict hepatocellular carcinoma recurrence after liver transplantation"

- **Dr. Jonathan Wermelinger**

Scientific Assistant, Department of Neurosurgery, Inselspital Bern

"The influence of a patient's mother tongue on parameters of cortico-cortical evoked potentials"

- **Dr. med. Fabio Ryser**

Resident, Department of Rheumatology and Immunology, Inselspital Bern

"Dupilumab Treatment Is Associated With Clinical Improvement and a Shift Toward a Health-Associated Nasal Passage Microbiota in Diffuse Type 2 Chronic Rhinosinusitis"

- **Dr. med. Lara Brockhus**

Scientific Assistant, Bern Institute for Primary Health Care (BIHAM), University of Bern

"The Effect of a Structured Drug Review on Death and Readmission in Patients with Heart Failure – a substudy of the OPERAM Trial"

- **Mayra Spizzo**

Research Assistant and PhD Candidate, Institute of Information Systems, University of Bern

"ChatGPT vs. Human? Interaction with Assistants to Generate Diagnoses"

- **Dr. Perrine Janiaud**

Senior Clinical Epidemiologist, Department of Clinical Research (DCR), University of Bern

"ChatGPT vs. Human? Interaction with Assistants to Generate Diagnoses "

17.10 – 17.45 Presentation of Prizes and Apéro

Prizes

200 CHF each

Best Poster in Clinical Studies

Best Poster in Imaging, methodology and technology

Best Oral Presentation Completed Studies

Best Oral Presentation Ongoing Studies

Best Rapid Fire Presentation

Poster Presenters

Tuesday, 9 December 2025 | Felix Frey Auditorium E0.211, sitem-Insel

Poster Presenters

Berk Can Acikgoz

PhD candidate at Department of Diagnostic, Interventional and Pediatric Radiology (DIPR), Inselspital Bern

"Hepatic PDFF quantification in patients with chronic liver disease using phase-cycled bSSFP"

Philipp Augsburger

PhD candidate at Department for BioMedical Research (DBMR), University of Bern

"Identifying early factors of unfavorable long-term health outcomes in girls with premature adrenarche"

DCR Lecture Program 2026

Last Wednesday of the month | 12.45–13.30 | on Zoom

28 January

From Collection to Cure: Managing Data That Drives Medicine

Eva Joho (MSc), Head of Data Management

Head of Data Management Unit at the Department of Clinical Research, University of Bern, specializing in research data governance and integrity.

25 February

Why individual learning is still important and how good online offers can support.

Prof. Dr. Phil. Sissel Guttormsen

Professor of Medical Education and Director of the Institute for Medical Education (IML) at the University of Bern, specialized in learning technologies and assessment.

25 March

The Swiss Brain Health Plan

Prof. Dr. med. Claudio L. A. Bassetti

Dean, Faculty of Medicine at the University of Bern, neurologist renowned for pioneering sleep–stroke research and leading academic neuroscience.

29 April

Genetic Studies in Underrepresented Populations: Insights from Sickle Cell Disease and Cystic Fibrosis in African Communities

Prof. Dr. Hugues Abriel

Vice-Rector for Research and Innovation, Universitiy of Bern, and Group Leader, Institute of Biochemistry and Molecular Medicine, specializing in genetic channelopathies and partnering with African universities on rare disease research.

20 May

Stem cell-based therapy of perinatal brain injury: From bench to bedside

Prof. Dr. med. Daniel Surbek

Head of Obstetrics and Maternal-Fetal Medicine and Managing Co-Director at the Inselspital Bern.

24 June

Prof. Dr. Leonhard Held

Professor of Biostatistics at the University of Zurich, Director of the Centre for Reproducible Science, and a specialist in spatial, Bayesian and applied methods for health research.

26 August

From Anecdote to Evidence - The DO-IT Journey in Anticoagulated Stroke Patients

PD Dr. Med. Thomas Raphael Meinel, PhD

Senior Physician at the Stroke Center, Inselspital Bern, researches cerebrovascular disease, cardiac diagnostics, and advances neurological education and evidence-based stroke care.

30 September

Milan Scheidegger, MD, PhD, MA HPK

Psychiatrist and neuroscientist leading psychedelic research at the University of Zurich, bridging neuropharmacology, therapy innovation, and mental health treatment.

28 October

Lum Kastrati, MD, PhD

Clinical-scientist specialising in real-world evidence, meta-research and cardiometabolic risk prediction.

25 November

Ethics in Clinical Practice: Prescription, dosage and moral side effects

Prof. Dr. Rouven Porz

Head of the Clinical Ethics Unit, Inselspital Bern, and President of the EACME (European Association of Centres of Medical Ethics).

Department of Clinical Research (DCR)

Advancing Clinical Research at the University of Bern

Research

The Department of Clinical Research (DCR) is the academic center for knowledge transfer and expert services related to clinical research at the University of Bern and University Hospital Clinics.

The DCR fosters professional, interdisciplinary collaboration in all aspects of clinical translation research and is dedicated to improving health outcomes through impactful, high-quality research.

Our own research initiatives aim to advance scientific knowledge and healthcare innovation, spanning both methodological development and practical application.

Key areas include:

- **Consulting**—Assistance in choosing appropriate designs, methods, procedures, and tools for research projects.
- **Research Groups**—Advancing knowledge through active engagement in multiple research projects across diverse scientific fields.
- **Medical Data Science Unit**—Advanced analytics, digital health methods and machine learning applications in clinical research.
- **Clinical Trial Methodology**—Developing novel tools, models and statistical approaches to enhance the design, conduct and analysis of clinical trials.
- **Education**—DCR offers a wide range of courses relevant to Clinical Researchers.

"We support your project from the initial idea to publication."

Collaborations / Services

The DCR offers comprehensive support throughout the complete research lifecycle of a clinical trial, from study conception to dissemination of results.

Collaborations / Services include:

- **Patient and Public Involvement (PPI)**—Exploring effective approaches to integrate patients and the public into all phases of the research process.
- **Clinical Study Management & Regulatory Affairs**—Support in study planning, methodology, project management, and regulatory compliance.
- **Data Management**—Expertise in handling and analyzing research data.
- **Monitoring**—Ensuring the integrity and quality of clinical trials.
- **Statistics and Methodology**—Statistical support for study design and data analysis.
- **Quality Management**—Maintenance and development of internal Quality Management Systems, ensuring adherence to legal and scientific principles.
- **Study Conduct (Study Nurses)**—Conduct on-site visits and manage study participant-related activities.
- **Medical Data Science**—including use of EPIC Data
- **Evidence Synthesis**—Systematic reviews and Delphi processes
